

NIKHIL PANCHAL

Technical Recruiter | Enterprise Technology Hiring | Talent Acquisition

nikhilpanchal022@gmail.com | +91 6268536933 | Indore, Madhya Pradesh, India | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Technical Recruiter with 3 years of full-cycle experience across Infrastructure, Cloud, Cybersecurity, Data Science, and AI/ML hiring. Individual contributor within enterprise talent acquisition teams, consistently managing open requisitions with an average 2-3 weeks time-to-fill and offer-to-join rates of 83–95% across roles. Led a rapid ramp-up drive closing 6 hires in 2 weeks for a critical project launch. Self-built a 15,900-record LinkedIn sourcing database with automated availability tracking, using ChatGPT-assisted classification and custom scripts. Leverage AI-assisted workflows for candidate screening, sourcing optimisation, and recruiting productivity. Built and engaged a 94K+ LinkedIn professional community.

PROFESSIONAL EXPERIENCE

Technical Recruiter, YASH Technologies

Oct 2025 – Present | Indore

- Manage **open requisitions** across Infrastructure, Cloud, Cybersecurity, and Data Science, sustaining a **2–3 weeks average time-to-fill** and achieved a **90% offer-to-join rate**.
- Led a rapid ramp-up hiring drive, closing **6 hires within 2 weeks** to support an urgent enterprise infrastructure project launch.
- Delivered the first successful hire for a strategic enterprise infrastructure programme, directly enabling project ramp-up.
- Partner with hiring managers to define hiring strategy, calibrate role requirements, and build high-quality talent pipelines for enterprise technology roles.
- Proactively source passive candidates using talent mapping, Boolean Search, X-Ray Search, LinkedIn Recruiter, and internal database such as SAP SuccessFactors.
- Conduct candidate assessments evaluating technical skills, communication, and role fit while maintaining a high-quality candidate experience.
- Support offer management, including compensation discussions, candidate query resolution, and onboarding coordination.

IT Recruiter, Emorphis Technologies

Jul 2024 – Oct 2025 | Indore

- Closed both contract and permanent roles over a 15-month span across Software Engineering, Cloud, Infrastructure, Data Engineering, and AI/ML, with an **83% offer-to-join rate**.
- Designed and built a **self-sourced LinkedIn talent database of my connections**, classified into 12 role categories using ChatGPT-assisted tagging and custom scripts.
- Partnered with hiring managers to align recruitment strategy and build qualified pipelines across Software Engineering, Cloud, Infrastructure, Data Engineering, AI/ML, and Emerging Technology domains.
- Proactively sourced and engaged passive candidates using LinkedIn Recruiter, Naukri, Hrist, Indeed, Boolean Search, X-Ray Search, and ATS-based talent mapping for niche technology hiring.
- Evaluated technical competencies, project experience, and communication skills to ensure strong candidate-role fit.
- Coordinated interviews and offer/onboarding activities, maintaining candidate engagement through a smooth transition to hire.

Technical Recruiter, NMS Consultant

Jul 2023 – Jul 2024 | Indore

- Closed **18 of 19 extended offers** (95% offer-to-join rate) across Technology, Pharmaceutical, Automation, and EMS client accounts.
- Partnered with clients to understand hiring requirements and delivered qualified talent across Technology, Pharmaceutical, Automation, and EMS industries.
- Managed recruitment lifecycle activities including sourcing, screening, interview coordination, and candidate follow-up.
- Proactively sourced candidates via LinkedIn, Naukri, Indeed, and internal databases to build qualified talent pools for diverse hiring needs.
- Managed recruitment documentation and reporting using Microsoft Excel and Google Sheets.

PROJECTS

LinkedIn Sourcing Database

Independently designed and built a personal sourcing database cataloging ~15,900 LinkedIn connections into 12 role categories (Software Engineering, DevOps, Data Engineering, Cloud, Business Analyst, and others), using ChatGPT-assisted classification and custom scripts. Layered an availability-tracking filter to flag candidates signaling immediate-joiner or notice-period status directly from their headlines, cutting manual search time for common roles. Built and maintained solo over 1–2 weeks; personal network has since grown to nearly 30,000 connections.

CORE COMPETENCIES

- **Technical Hiring** — Enterprise Technology Hiring | Full Lifecycle Recruitment | Talent Acquisition | Strategic Sourcing | Passive Candidate Sourcing | Talent Pipeline Development | Candidate Assessment | Stakeholder Management
- **Talent Intelligence** — Talent Mapping | Market Research | Advanced Boolean Search | X-Ray Search
- **AI-Assisted Recruitment** — AI-Assisted Recruiting Workflows | AI-Assisted Candidate Screening | Resume-to-JD Analysis | AI-Assisted Boolean Search | Talent Funnel Analysis
- **Technology Domains** — Infrastructure | Cloud | Cybersecurity | Software Engineering | Data Engineering | AI / ML | Data Science | Enterprise Technology
- **Recruitment Platforms** — LinkedIn Recruiter | Naukri | Hiris | Indeed | Instahyre
- **Applicant Tracking Systems** — SAP SuccessFactors | Freshteam (Freshworks)

CAREER HIGHLIGHTS

- Built a **LinkedIn community of 94K+ professionals**, consistently sharing recruitment, talent acquisition, and technology hiring insights while enhancing professional visibility and talent engagement.
- Successfully recruited **niche technology professionals** across Infrastructure, Cloud, Cybersecurity, Data Science, Network Security, and Enterprise Technology for business-critical hiring initiatives.
- Delivered the **first successful hire** for an enterprise infrastructure hiring initiative, supporting project ramp-up for a strategic business programme.
